- 

## Summary

Front-end Developer with a solid foundation in HTML, CSS, JavaScript, React, Material UI, TailwindCSS, and Redux. Possesses excellent problem-solving skills and proven teamwork capabilities. Dedicated to crafting user-centric, responsive web applications. Looking for a junior developer role to apply my skills and grow within a dynamic development team

## Skills

- **Languages & Frameworks:** HTML, CSS, JavaScript, React, Redux
- **UI Libraries:** Material UI, TailwindCSS
- **Tools & Platforms:** Git, GitHub, Firebase, RESTful APIs
- **Soft Skills:** Problem-solving, Teamwork, Communication

## Education

### Bachelor of Science in Computer Science

*Laikipia University*

Graduated: December 22, 2023

## Work Experience

### Freelance Frontend Developer

*Fiverr and Private Clients*

January 2022 - Present

- **Lamwa Vetcare:** Renovated their existing website, enhancing user experience and performance.
- **Computer Engineering Forum:** Developed a new website during an online attachment, focusing on responsive design and usability.

- **Mochere & Company Advocates:** Designed and implemented the frontend based on client requirements, ensuring a professional and accessible user interface.

## Projects

### MovieBox

A web application to browse and manage movies, developed with React and Redux.

- **Technologies Used:** React, Redux, Material UI
- **Key Learnings:** State management, component design, and API integration

### Mochere Law

A website for a law firm, built with Tailwind CSS to ensure a modern and responsive design.

- **Technologies Used:** Tailwind CSS, HTML, JavaScript
- **Key Learnings:** Responsive design, utility-first CSS, and user experience optimization

### Lamwa Vetcare

Enhanced a live production website, focusing on performance improvements and bug fixes.

- **Technologies Used:** HTML, CSS, JavaScript
- **Key Learnings:** Real-world debugging, performance tuning, and cross-browser compatibility

## Languages

- **English:** Fluent
